### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on January 15, 2001 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1 and 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Kuan et al (US 5,757,954).

As to claim 1, Kuan et al disclose a method for detecting an object image within image data comprising; receiving image data (fig.1, element 516); Segmenting the image data into multiple windows (fig.4); Determining likelihood that each window contains the object, and probability rank ordering the multiple windows based on the step of determining (column 4, lines

Art Unit: 2625

27-41); and selecting a predetermined one of the multiple windows as a window wherein the object image is considered to reside (column 4, lines 27-41).

As to claim 16, Kuan et al disclose a target detection process comprising: Acquiring image data; down-sampling the image data n-times (column 6, lines 41-44); processing the down-sampled image data for detecting at least one of a light target and a dark target (column 7, lines 21-33 and column 7, lines 44-50); Labeling subsets of the image data that may contain target data and rejecting clutter associated with these subsets of the image data (column 6, lines 49-52 wherein morphological operation remove isolated noise like pixels); Combining results of the image data that has been down-sampled (column 12, lines 35-40); and forwarding combined results to a decision-making authority.

***Allowable Subject Matter***

4. Claims 2-15 and 17-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
